The National Catering Consulting and Advisory Service to Schools

The one stop shop for all you need to create and sustain an
Outstanding! food experience for children

So Ofsted has just been in....

We found the restaurant appealing and conducive to a comfortable eating experience and were pleased to see so many teachers dining with the children. Menus were well presented with the meal of the day, what was in store for the week ahead and the upcoming theme day. The chef insisted we look at the food and nutrient standards analysis and made a point of stressing that following his level 3 food safety course he has now attained a 5 star rating with the EHO department!

Whilst enjoying an excellent lunch one student explained that he was on a committee that gets the chef and some teachers together to discuss how their vegetable patch is going, the new re-cycling system and that they are off to the farm next week to see where the food comes from!

Outstanding! is a collective of the very best organisations and individuals who work in education catering nationally. Team members are from Local Authorities, consulting firms, contract caterers, associations for equipment, trainers, design experts, procurement experts, eco and environmental societies, in-house operators, nutrition and menu development experts plus more. Essentially the people who have delivered the best standards, introduced and monitored nutrient and food based standards, trained the school food workforce and set the standards for economic and environmental success as well designed and built the very best school kitchens and restaurants.

The Services we provide:

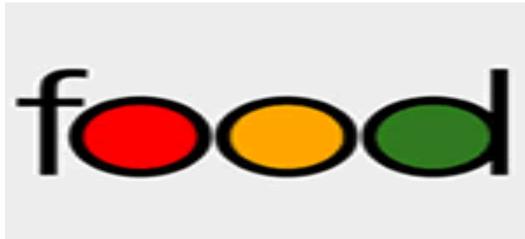

- Food and menu design – portion examples and the food based and nutrient standards required
- How the funding for UIFSM works and its impact on your budget
- Planning for expansion: for those schools that require a slight increase in take up capability
- Dining centre?- your options explored
- Catering for a further 50 to 200 covers per day? -You need an equipment and services review..
- New build or extension requirements?
- Carbon calculator?
- Organic supply chain and setting targets, re-cycling, and eco sensitive projects including home growing

- Staff training needs
- You need a new caterer?
- You need to re-negotiate your existing contract
- Environmental Health and H&S support
- Restaurant imagery, design and marketing
- Marketing to parents, guardians and use of high end media
- You're moving to an in-house set up
- You need a maintenance and repair service
- Food- its safe handling, where it comes from and its impact on the environment-pupil training
- Light equipment and utensil supply
- Budget planning and cost to benefit exercise
- New framework procurement for a group of schools

Get in touch and we will discuss with you your needs to enable an outline understanding. We will then provide you with the right information and links to get you started. We then arrange to meet with you, (your governors, parents and children) and organise a viewing of your services.

We will then produce a review of your current delivery arrangements and alongside this a list of **recommendations and solutions** covering one or several of the above aspects (Or whatever needs you may have) with a detailed action plan.

By identifying your objectives we will agree a plan of RED, AMBER & GREEN priority ratings to ensure your targets are identified and categorised in order of immediacy.

For specialist services, e.g. procurement, design and planning, equipment purchase, restaurant design, training, contracts, nutritional & menu development etc your Ambassador will be supported by one or more of the **Outstanding!** specialists.

We are aiming to get a productive plan in place for each school and organisation immediately. Many schools are underway with our assistance. Our approach is to set schools in the right direction for the short, medium and long term resulting in a sustainable strategy and lasting legacy for future young customers...
